## **PRE-PHD COURSE IN SANTALI LANGUAGE**

### **Brief Introduction:**

Santal are a tribe. The language is Santali. The name of his script is Olchiki. Olchiki script is invented by Pandit Rghunath Murmu. Santali language is a constitutional acceptance language. Today among the most spoken states of Santali language India, Jharkhand, Bihar, Odisha, Bengal and Assam. Santali language today from primary level to university, Santali language is being taught. Today, along with UPSC and PSC, other competitive exams are also being written in Santali. In our university also, Santali language is being taught through Olchiki script.

### **Course Outcome:**

Students taking these degree can do research in college or university to directly do a PhD. Doing good research gets him a PhD degree. The more research work done, the more it will prove helpful for that society. That's why everyone should study this course. And take your language studies to the top. Research literature is essential. The pure thing always comes out from research work.

### **Course Objective**

Our course objective is very clear. In this course we have divided into two subjects. In a research Methodology –I, how research is done, how many type of research are there, foot notes etc are taught. And in the second paper research methodology-II is told about how to editing and Translation. By doing this course, one gets registered in the PhD to do research work.
